**RoHS
Compliant**

Description

This Bluetooth Keyboard and bracket kit allows you to add a compact keyboard to your Raspberry Pi 4 Touchscreen Case. The bracket screws into the fixing points on the bottom of your touchscreen case to create a compact workstation setup for your Raspberry Pi. The keyboard has an internal lithium battery. This keyboard can be used with the Windows, Mac, android based computers, tablets and smartphones. Due to its small sizes and 123 gram weight you can easily take it with your trip and use as the remote keyboard for a lot of devices which support Bluetooth.
